21700 Li-Ion USB-C  
Rechargeable Battery

## Next Generation 21700 Li-ion Batteries

Featuring long lifespan, high energy density and powerful performance, 21700 Li-ion batteries were first introduced in the electric car industry and are considered to be the future of cylindrical batteries.

Rechargeable Battery

## Internal Safety Features

Pressure relief valve activates  
in the event of a rapid  
temperature increase

Innovative anode design with  
high temperature resistance

Built-in PTC to inhibit high current surges

Microporous barrier protects  
delicate internal components

**NITECORE®**  
**NL2150R**

21700 Li-Ion USB-C  
Rechargeable Battery

## High-performance Protective Circuit

1. Automatically protects against overcharge, over discharge and short-circuiting
2. Utilizes a high-quality battery protection IC
3. Utilizes two high-power MOS FETs in the current regulation module for better efficiency and superior output

**NITECORE®**  
**NL2150R**

21700 Li-Ion USB-C  
Rechargeable Battery

## External Safety Features

1. Equipped at both ends with a nickel-plated stainless steel protector ensuring high impact resistance, good electrical conductivity and oxidation resistance
2. Coated with durable metallic film to guard against abrasion
3. Tough plastic circuit board protector

Rechargeable Battery

## Safe and Reliable

Globally insured and multiple  
global certifications approved

# NITECORE® NL2150R

21700 Li-ion USB-C  
Rechargeable Battery

## Specifications

Type: NL2150R

Capacity: 5,000mAh

Voltage: 3.6V

Continuous Discharge Current: 5A MAX

Charging Port: USB-C

Warranty Period: 12 months warranty from the date of purchase

## ⚠️ Precautions:

- Never expose the battery to water or fire.
- When charging or using batteries, ensure the positive and negative ends correspond with the positive (+) and negative (-) symbols.
- To extend battery life it is recommended that it is charged every three months when unused for long periods.
- Keep out of the reach of children
