

## Pyropen Piezo

Item No: T0051605899

Pyropen Piezo Butane gas Soldering Iron

The Weller Pyropen Piezo Butane gas soldering iron is a self igniting soldering iron with solder and hot blow functions. The tool has a rapid heat up time and one filling of Butane gas lasts up to 3 hours. It's ideal for soldering on the go and helps to complete soldering tasks anywhere, without the need for a mains supply or an obstructing cable. It is temperature adjustable between 250°C to 500°C when used as a soldering iron and up to 650°C when used as a hot air blower. Due to its piezo igniter the Weller Pyropen can be conveniently turned on without the need of another tool.

# KEY FEATURES

- Self-Igniting Piezo function:**  
Convenient one hand start with self-igniting push button piezo ignition, without the need of another tool
- Ready to use within seconds:**  
Rapid heat up time, no long waiting for heating up the iron
- Extra long operation time:**  
Butane gas soldering iron works approximately 3 hours with one filling of Weller Butane gas
- Solder on the go, even outdoors:**  
Complete your soldering task anywhere, without the need for a mains supply or an obstructing cable in the way
- High versatility with included accessories:**  
with additional hot air blower function for shrinking hoses
- Temperature adjustable from 250° to 650°C:**  
variable adjustable temperatures can be set between 250° and 500°C when used as soldering iron, and 650°C when used as hot air blower
- Easy refill with Weller butane gas:**  
No need for cords, batteries or cartridges, easy refill with Weller butane gas in just a few seconds for an almost uninterrupted workflow

# TECHNICAL DATA

|                                     |                     |
