

JBC HTS

Stand for HT420 Thermal Tweezers

JBC**FREE TEST 30 DAYS**

HTS Stand works exclusively with HT420 Thermal Tweezers and DIU, DDU and DMU Control Unit.

Sleep & Hibernation Modes automatically detect the tool in the stand and reduces the tip temperature below the solder melting point. Hibernation cuts off power supply preventing oxidation. As a result, tip life lasts up to 5 times longer.

The Stand features Quick Cartridge Changer, which enables a safe, easy and quick cartridge exchange without having to turn the station off.

The position of the tool holder is easily adjustable to suit your needs and Cable Collector is designed for perfect movement adaptation and to keep cables away from the working area.
