

E/NTES

MCB-25 Time Relay with LCD display

MCB-25 time relay offers flexible solutions with **24-240 VAC/DC** wide operating range and **8 different timing functions** which can be controlled by triggering as well as main timing functions.

The user-friendly menu makes setting and operation easy and fast. It provides more precise control with adjustable time range from **0.1 second to 999 hours**.

It occupies less space in panels where mounting space matters thanks to its **slim type design**.

- LCD display,
- 24 – 240 VAC/DC wide operating range,
- Precise time setting between 0,1 s – 999 h ,
- 8 different timing functions,
- IP20 protection class,
- 1 CO contact output (8A, 2000 VA),
- Rail mounting,
- -10°C ... +50°C operating temperature
