

## Fast cross-linking two-component silicone gel

**MPgel PLUS** is a re-enterable two-component silicone gel for insulated filling and sealing of casings and junction boxes housing electrical connections of up to 1 kV or electronic components, suitable for a wide range of applications.

### Simple

The two components are supplied in separate containers, thus ensuring the correct 1:1 mixing ratio.

**MPgel PLUS** may be partially used as needed, and reused even after the pack has been opened, providing maximum yield.

### Rapid cross-linking

**MPgel PLUS** has an extremely short **cross-linking time**, allowing rapid installation and reducing delays before activation.

**12**  
min

**NEW**  
**1 LITER JUG**

### Fast and accurate mixing

The measuring jug provided with the 1 and 10-liter sizes ensures accurate mixing and prevents waste.

MPgel 100 is supplied with a **new 1 liter jug**, which allows to mix the entire contents of the bottles in one go, making installation even faster.

MPgel bags are provided with a special **Perforation Pouring System (PPS)** which allows the operator to avoid contact with the gel when opening it. The nozzle has a toothed cylindrical end that fits securely into a ring inside the bag and punctures it, allowing the gel to flow evenly without accidental spills.

### Low viscosity

Its low viscosity makes **MPgel PLUS** easy to pour and also ensures fast and **safe filling** of the containers and gaps.

### Re-enterable and removable

Once cross-linked, **MPgel PLUS** can easily be removed without the need for tools even after long periods of time.

### Safe

**MPgel PLUS** is non-toxic, non-irritating, odourless, and solvent-free, and is classified as non-hazardous under European Regulation no. 1272/2008 (CLP).

### High performance

**High dielectric strength** (25.5 kV/mm).  
Wide operating temperature range (-60 to 200 °C).

**MPgel plus** is resistant to **UV rays** and so can also be used outdoors and exposed to the elements.

### Packaging

**MPgel PLUS** is available in bags with removable baffle, in bottles of different sizes, and in jerrycans, for efficient use whatever the quantity of product required.

Low viscosity

Re-enterable and removable

Eco-friendly

Odourless

Non-irritating

High dielectric strength

High moisture protection

No expiry date

### Available sizes

bottles in 2 sizes

bags in 4 sizes

jerrycans

- **Very fast cross-linking:**  
Cross-linking time: 12 min at 23 °C
- Dielectric strength: 25.5 kV/mm
- Mixing ratio 1:1
- Working time at 23 °C: 5 min
- Operating temperature: -60 to 200 °C
- Colour: pale blue
- Classified as non-hazardous according to European Regulation no. 1272/2008 (CLP)

### Applications

- Filling of electrical junction boxes
- Insulation of 0.6/1 kV electrical connections
- Insulation of electronic boards and components

### Advantages

- Non-toxic
- Re-enterable
- Eco-friendly
- Easy pouring
- **Very fast cross-linking**
- Excellent electrical insulation
- Good mechanical resistance
- UV resistant
- Protection from elements (rain, moisture), dust, animals, insects, leaves
- No expiry date
- Reusable after opening
- **Available in 7 sizes**

## MPgel PLUS

### Fast cross-linking silicone gel in bags

re-enterable two-component for insulated filling and sealing

Watch the video

- **No waste** thanks to PPS
- Suitable when a **limited amount** of product is needed

### Kit contents

- Bags with removable baffle
- Perforation Pouring System (PPS)

### Available sizes

| item             | volume (liters) |
|------------------|-----------------|
| <b>MPGEL 170</b> | 0.170           |
| <b>MPGEL 240</b> | 0.240           |
| <b>MPGEL 420</b> | 0.420           |
| <b>MPGEL 600</b> | 0.600           |

### Filling capacity (calculated for completely empty boxes)

## MPgel PLUS

Fast cross-linking  
silicone gel  
in bottles

re-enterable two-component  
for insulated filling and sealing

Watch  
the video

- **No waste** thanks to separate bottles and measuring jug
- Can be mixed in one go with the new 1 lt jug (supplied with MP0100)

### Kit contents

- 2 transparent 150 ml or 500 ml bottles
- 1 litre measuring jug (MP0100)

### Available sizes

| item      | volume (liters) |
|-----------|-----------------|
| MPGEL 30  | 0.3             |
| MPGEL 100 | 1               |

## MPgel PLUS

Fast cross-linking  
silicone gel  
in jerrycans

re-enterable two-component  
for insulated filling and sealing

- **No waste** thanks to separate jerrycans and measuring jug
- Suitable when a **large amount of product** is needed and/or **for later use**

### Kit contents

- 2 transparent 5 litres jerrycans
- Measuring jug

### Available sizes

| item       | volume (liters) |
|------------|-----------------|
| MPGEL 1000 | 10.0            |
